What is Tiranga Game?

Tiranga Game is an online real-money gaming platform where users participate in quick prediction games and win rewards based on correct choices. The platform is designed to be lightweight and mobile-friendly, making it accessible to users from all backgrounds.

The app focuses on short rounds that last only a minute or two. This means players don't have to wait long for results. You can play during breaks, while traveling, or anytime you want quick entertainment. With secure payment options and instant withdrawals, Tiranga Game ensures convenience along with excitement.

The biggest attraction of the platform is its famous **colour prediction game**, but there are also several other fun games that keep the experience fresh and engaging.

Colour Prediction Game – The Main Attraction

The most popular feature of [Tiranga Game](#) is the **colour prediction game**. It's simple, fast, and thrilling, making it perfect for casual players.

How It Works

Each game round runs for about 60 seconds. During this time, players choose one of three colours:

- Red
- Green
- Violet

After selecting a colour, you place your bet. When the countdown ends, the system randomly displays the winning colour. If your chosen colour matches the result, you win money instantly.

Payout System

- Red or Green – Double payout (2x your bet)
- Violet – Higher payout (up to 4.5x your bet)

Because rounds are short, you can play multiple times in just a few minutes. This keeps the excitement high and gives more chances to earn.
